## Workshop in Practical Plant Diagnostics

Royal Botanic Garden Edinburgh  
Wednesday, 11 September 2019

We invite PhD students, researchers, agronomists, horticulturalists, and anyone interested in plant diseases to a one-day workshop on practical techniques in plant diagnostics:

- core diagnostic skills
- diseases in crops, trees, and ornamental plants
- remote sensing and surveillance
- advances in molecular detection.

**£65, lunch provided**

**Student and secondary teacher scholarships available.**
